Since Sir Walter Raleigh---
The Mark of a Gentleman

What we know today as a starched collar was a "ruff" back in the days of the adventurous and gallant Sir Walter—but always from then to now, it has been the mark of the gentleman.

The men's wear magazines tell us that from Picadilly to Michigan Boulevard—In the clubs, in the offices—wherever there are men who know the business value of looking the part, starched collars are enjoying unprecedented popularity.

ARBUCKLE ARRESTED FOR VIOLATION OF PROHI LAW

San Francisco, Oct. 8.—Roscoe C. ("Fatty") Arbuckle, who came here yesterday from his home in Los Angeles for arraignment on a charge of manslaughter, as a result of the death of Miss Virginia Rappe, was served with a federal warrant charging the illegal possession of intoxicating liquor as he left the Superior Court building.

Arbuckle's arrest yesterday grew out of his alleged violation of the Volstead prohibition act on Sept. 5, the date of hotel party following which the death of Miss Rappe occured.

He was brought before Thomas E. Hayden, United States commissioner and released on $500 bond for hearing on Oct. 13, the same date on which to enter a plea to the manslaughter charges.

Arbuckle grinned broadly when a newspaper photographer unexpectedly took a flashlight picture in the federal commissioner's office startling the small group present.

He departed for his home later yesterday.

COST OF ARMY OF OCCUPATION

Paris, Oct. 8.—The cost of the United States army of occupation on the Rhine from the date of the armistice until April 1, 1921, was second only to that of France, according to the figures issued officially by the reparations commission, which has established gold marks as the standard in stead of pounds, francs or sterling. The figures are as follows:

France, 1,270,455,838, gold marks; United States, 1,167,327,830; Great Britian, 991,016,859; Belgium, 194,708,228; Italy, 10,064,861.

The Temps, commenting on these figures says:

"Had the expenses of occupation been figured according to last April's rate of exchange the total cost would have been one half."
