### Weather's Still Warm, But Dove Season Opens

Who plan to go afield on opening day are already showing signs of excitement. The Bureau of Game and Fish Commission, hunters can hardly wait to begin firing at the darling, twisting target offered by the flicking bird.

State Game and Fish Director Fulton Lovell says hunters should be on the ground by the first of the season. He says the birds are now in the area where they will be most abundant.

Lovell said hunters may legally shoot doves:

1. Over grain fields seeded in normal agricultural manner.
2. Over standing crops.
3. Over flooded standing crops of grain or other feed, including aquatic.
4. Over grain crops previously flooded on field where grown.
5. Over standing grain or other feed grown by livestock, except that it is harvested down corn field.
6. Over grain fields planted as the result of normal agricultural practice.
7. Over wood, fields, pasture lands, wooded or other areas where grain or other feed has been scattered or deposited so as to constitute a lure or decoy.
